What things are included in my history?

- **Browsing & Download History**: Browsing history is the list of sites you've visited that are shown in the History menu, the Library window's History list and the <u>address bar</u> <u>autocomplete</u> list. Download history is the list of files you've downloaded that are shown in the <u>Downloads window</u>.
- Form & Search History: Form history includes the items you've entered into web page forms for Form autocomplete. Search history includes items you've entered into the search field on the <u>New Tab page</u> or into Firefox's <u>Search bar</u>.
- **Cookies**: <u>Cookies</u> store information about websites you visit, such as site preferences or login status. This includes information and site preferences stored by the Adobe Flash plugin. Cookies can also be used by third parties to track you across sites. For more info about tracking, see <u>How do I turn on the Do Not Track feature?</u>.

Note: In order to clear cookies set by Flash you must be using the latest version. See <u>Updating Flash</u> for instructions.

- **Cache**: The cache stores temporary files, such as web pages and other online media, that Firefox downloaded from the Internet to speed up loading of pages and sites you've already seen.
- Active Logins: If you have logged in to a website that uses HTTP authentication since you most recently opened Firefox, that site is considered "active". Clearing this logs you out of those sites.
- Offline Website Data: If you've allowed it, a website can store files on your computer so that you can continue to use it when you are not connected to the Internet.
- Site Preferences: Site-specific preferences, including the saved <u>zoom</u> level for sites, character encoding, and the permissions for sites (like pop-up blocker exceptions) described in the <u>Page Info window</u>.

How do I clear my history?

- 1. Click the Library button (), click History and then click Clear Recent History....
- 2. Select how much history you want to clear:
 - Click the drop-down menu next to **Time range to clear** to choose how much of your history Firefox will clear (the last hour, the last two hours, the last four hours, the current day or everything).

Clear Recent History	x
Time range to clear:	
History	
Browsing & Download History	✓ Cookies
Active Logins	✓ C <u>a</u> che
✓ Form & Search History	
Data	
Site Preferences	Offline Web Site Data
	Clear Now Cancel

- Use the check boxes to select what information you want to clear from your history. Your choices are described in the <u>What things are included in my history?</u> section above.
- 3. Click the Clear Now button. The window will close and the items you've selected will be cleared from your history.

How do I make Firefox clear my history automatically?

If you need to clear your history every time you use Firefox, you can set it to happen automatically on exit so you don't forget.

- 1. Click the menu button \equiv and select Options.
- 2. Select the Privacy & Security panel and go to the History section.

3. In the drop-down menu next to Firefox will, choose Use custom settings for history.

4. Check the box for **Clear history when Firefox closes**.

History			
Firefox <u>w</u> ill	Use custom settings for history	•	
Always	use <u>p</u> rivate browsing mode		Clear Hi <u>s</u> tory.
✓ Rer	nem <u>b</u> er my browsing and downlo	ad history	
✓ Rer	nember search and <u>f</u> orm history		
🗸 Cle	a <u>r</u> history when Firefox closes	Se <u>t</u> tings	

- 5. To specify what types of history should be cleared, click the Settings... button next to **Clear history when Firefox closes**.
- 6. In the **Settings for Clearing History** window, check the items that you want to have cleared automatically each time you quit Firefox.

Settings for Clearing History					
When I quit Firefox, it should automatica History	ally clear all:				
Browsing & Download History	<u>C</u> ookies				
✓ Active <u>L</u> ogins	✓ C <u>a</u> che				
✓ <u>F</u> orm & Search History					
Data Site Preferences	Offline Website Data				
	OK Cancel <u>H</u> elp				

- 7. After selecting the history to be cleared, click OK to close the **Settings for Clearing History** window.
- 8. Close the *about:preferences* page. Any changes you've made will automatically be saved.

Note: Under certain circumstances, this function will not run:

- *Firefox did not shut down normally.* If Firefox crashes, you will need to start Firefox and exit/quit normally to ensure that this function runs.
- *Firefox is set to use automatic private browsing*. History retained from regular sessions can only be cleared from a regular window. To change between regular mode and automatic private browsing, see: <u>Private Browsing</u> <u>Use Firefox without saving history</u>.

Clear cookies and data for a specific website

See <u>Clear cookies and site data in Firefox</u>.

Remove a single website from your history

- 1. Click the Library button , click History and then click the **Show All History** bar at the bottom to open the Library window.
- 2. Search for the website you want to remove from your history by typing its name in the **Search History** field in the top-right corner and then pressing Enter.
- 3. Then, in the search results, right-click on the site you want to remove, and select Forget About This Site.

All history items (browsing and download history, cookies, cache, active logins, passwords, saved form data, exceptions for cookies, images, pop-ups) for that site will be removed.
