More than a website

This user guide will take you step by step through the website registration process, highlight key features of the website and lead you through the enrollment process.

You can access the JBC website starting November 11, 2019, using single sign-on through JENIE (the preferred option) or directly at <https://judiciary.lifeatworkportal.com>, from a computer or any mobile device.

Register now

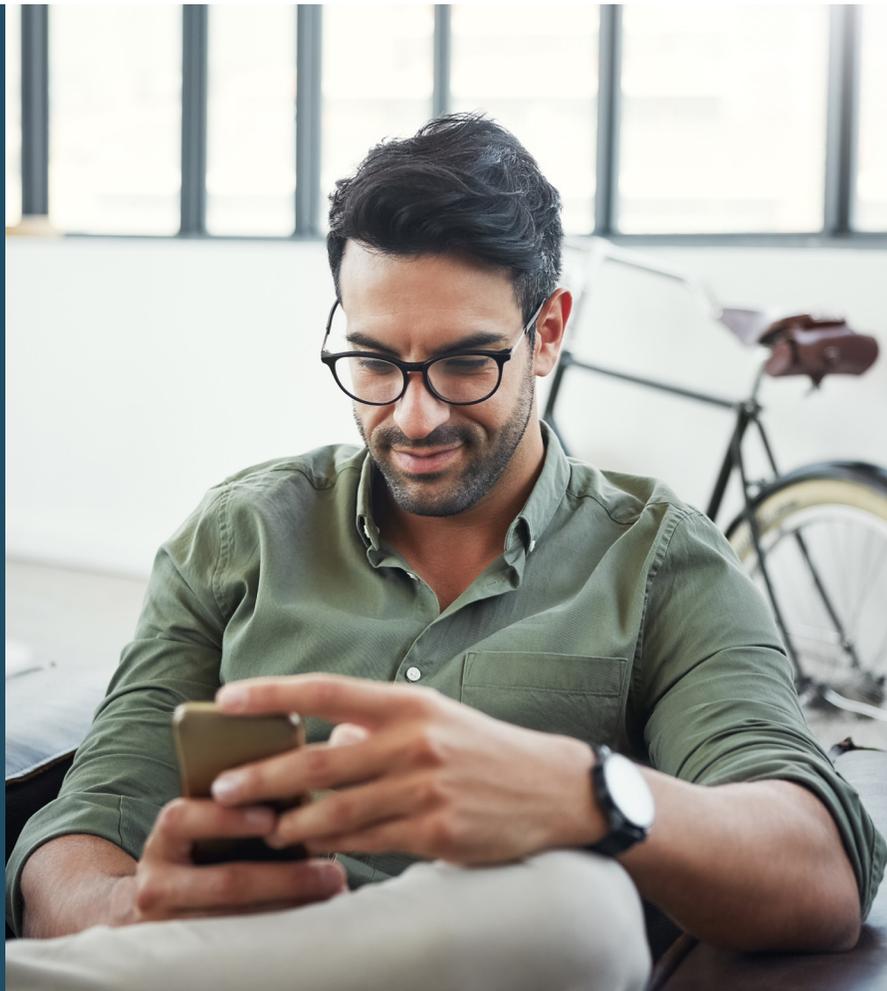

The Federal Judiciary takes your privacy seriously. That's why the JBC website has one of the industry's strongest online security methods to protect your personal information.

Starting November 11, 2019, you must register as a first-time user and create your new login credentials to access the JBC website. You can register for the JBC website using single sign-on through JENIE (the preferred and easier option) or directly through the JBC website.

Register through JENIE

Registering through JENIE is the fastest way to access the JBC website:

- Go to JENIE and select **Open Season and Annual Enrollment 2020**.
- Follow the onscreen prompts to create a User Name and Password.
- Provide login recovery information in case you forget your User Name or Password.

Register through the JBC website

Step 1: Register as a first-time user.

- Go to the JBC website at <https://judiciary.lifeatworkportal.com>.
- Select **Register as a first-time user**.

Step 2: Validate your identity.

- A Registration Key is required to authenticate and complete your registration. If you do not have a Registration Key, you must request a Registration Key at the beginning of the registration process. **Note:** When you request a Registration Key, previously issued Registration Keys will become invalid.
- If you have a Registration Key, select **Yes – I already have a key** and follow the prompts to provide the last four digits of your Social Security number and your 16-digit Registration Key.
- If you do not have a Registration Key:
 - Select **No – I need to request a key**.
 - You'll be prompted to provide your Social Security number, Date of Birth, Home ZIP Code and complete a CAPTCHA verification.
 - Select **Request a Key**.
 - You can choose to have your Registration Key sent to your email address (the fastest way to receive it) or sent through postal mail. Once you receive your Registration Key, you'll need to act quickly as the Registration Key has an expiration date.
 - Once you receive your Registration Key, enter it as prompted.

Step 3: Create a User Name and Password.

Step 4: Provide login recovery information.

- Follow the onscreen prompts to provide login recovery information.
- This information will be used if you forget your credentials or if you must authorize a new device to access the website.

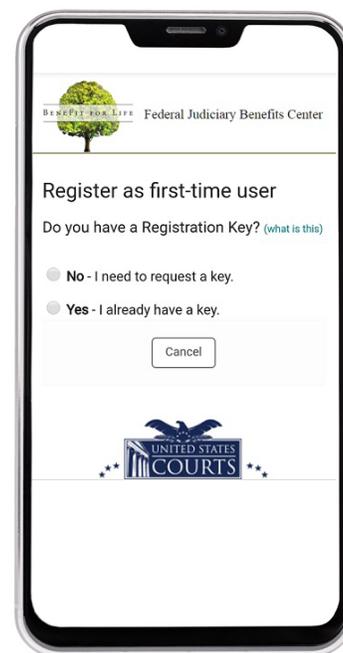

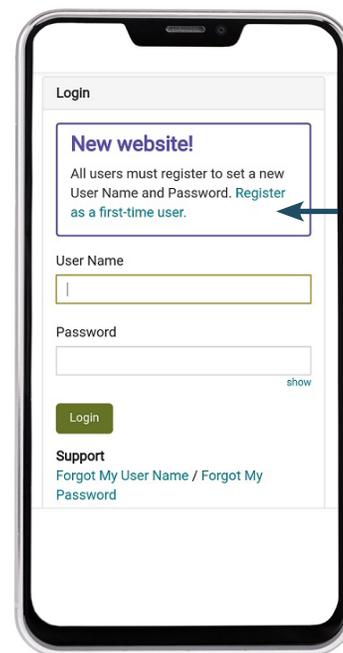

Step 5: Indicate if you will log in using your current device in the future.

- If so, the website will store that device and browser combination as a trusted device.

At this point, you have successfully registered on the JBC website.

Step 6: Log in using your new credentials.

- The website will prompt you for your User Name and Password.

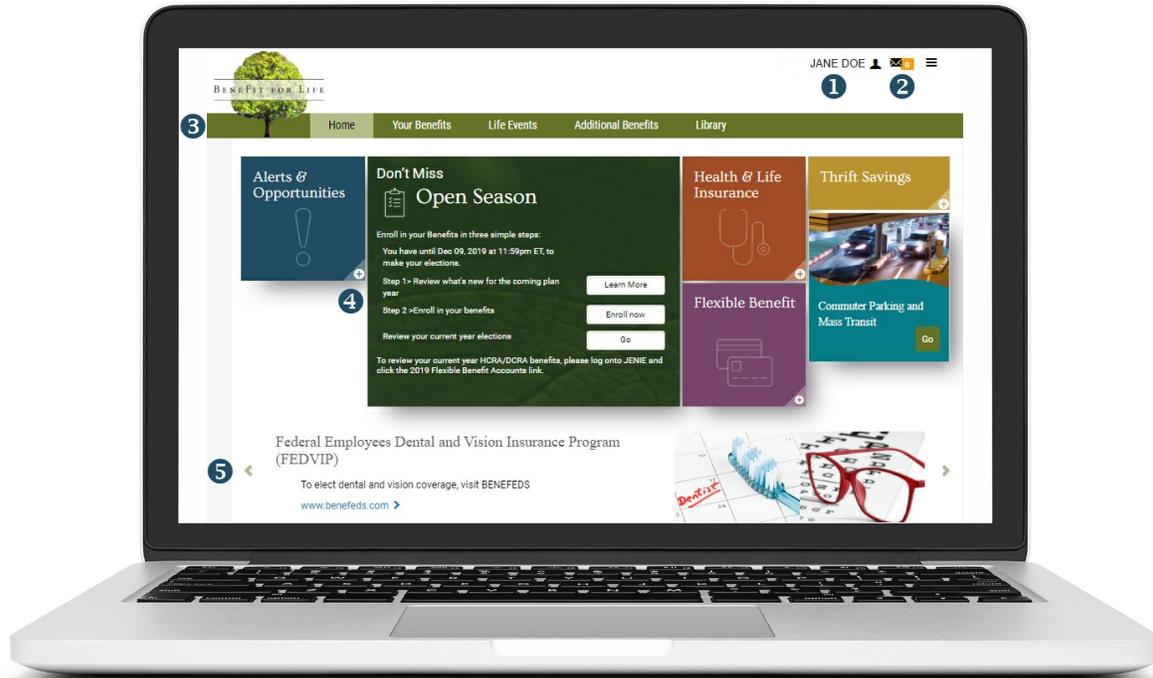

In the future...

- If you log in from a trusted device, the website's security will recognize your device and direct you to the home page.
- If you log in from another device (one you have not yet indicated is a trusted device), or use a different browser, you will be sent a six-digit device authorization code (via email or mail, as you select). Once you have the code, enter it when requested to proceed to the JBC home page.
- If you are unable to receive a six-digit device authorization code via email or mail, you can elect to answer your security questions instead.
