RE: MASTER JURY WHEEL
4:25-MC-00683

NOTICE

PROCESS BY WHICH NAMES ARE DRAWN FROM MASTER JURY WHEELS

Pursuant to 28 U.S.C. §1861, all litigants "have the right to grand and petit jurors selected at random from a fair cross section of the community." A master jury wheel is created by selecting names at random from the Commonwealth of Pennsylvania Department of State, Voter Registration List. Then, names are randomly drawn periodically from the master jury wheel to receive juror qualification questionnaires and summonses to report for grand or petit jury service. Individuals' answers to these questionnaires determine whether they are legally qualified and available to serve. If so, those individuals are expected to report pursuant to the court's instructions. If not, those individuals are notified not to report or are postponed to another time. All the selections are carried out through a properly programmed electronic data processing system for pure randomized selection. The pure randomized process ensures that the mathematical odds of any single name being picked are substantially equal.

Melissa L. Branch

Jury Clerk
